Unfortunately, their savings are low and the burden of their debt takes a toll on both their financial and personal health. AD Council: **Financial Literacy – Rich Uncle**

Eighteen (18) One Minute Public Service Announcements Aired: 10/17/14 – 11/11/14
(Monday – Sunday 6AM – 12AM)

Unexpected reactions to smart financial decisions brought to you by feedthepig.org. Well, I finally did it. I opened up a 401K. So you're giving up like that? Giving up on what? On getting an inheritance from a distant relative. Don't you think if there were a billionaire in the family we'd know about it by now? Listen to me; we are one phone call away from riding horses on our own private polo ground! One call from glistening yachts, having a butler, using summer as a verb! How do you figure? Look. Everyone's got a rich uncle somewhere. It's statistics. So the best thing you can do is prepare for the inevitable. Right, which is why I thought maybe it would be smart to take control of my finances. You know? Start using a budget. Get out of debt. Set some retirement goals. Budgets? Debt? You watch your mouth. Retirement shouldn't be a goal for us. It should be a way of life. When it comes to financial stability, don't get left behind. Get tips and advice for saving at feedthepig.org. This message brought to you by the American Institute of CPAs and the AD Council.

Issue – With half of the teachers eligible to retire within the next decade, there is an urgent need and unprecedented opportunity available for motivated students. Teaching is a competitive and innovative profession that leaves a lasting impression on a child. Talented, engaged and innovated students should consider going into the teaching profession.

AD Council: **Teacher Recruitment – Growing Up**

Eighteen (18) Thirty Second Public Service Announcements Aired: 10/17/14 – 11/11/14
(Monday – Sunday 6AM – 12AM)

You wanted to be a teacher when you were little, but as you grew up, things changed. Teaching just didn't seem like the best option anymore. So you decide to become something else. But what would your 12 year old self say. Interesting and innovating things are happening in teaching today. So it's time to put it back on your list. Don't try to convince yourself otherwise. You had it right the first time. Find out how you can make more at teach.org. Make more. Teach. Brought to you by TEACH and the AD Council.

III. SAFETY/DRUGS & ALCOHOL

Issue – In 2012, deaths in crashes involving drunk drivers with a blood alcohol concentration (BAC) of .08+ numbered 10,322—that’s one every 51 minutes. Though the drunk-driving prevention campaign has been very successful, research showed that many people thought the message to be targeted at overly drunk drivers and not them. When decision time came, they would consider themselves merely “buzzed” and get behind the wheel.

AD Council: **Buzzed Driving Prevention/Expensive Night**

Twenty-Two (22) One Minute Public Service Announcements Aired: 12/05/14 – 12/30/14
(Monday – Sunday 6AM – 12AM)

It’s Thursday night and your grabbing drinks with some friends. Started off with a pitcher for the table, which quickly becomes two. There’s pool and then there’s the photo booth. Followed naturally by an order of wings, and another. Then there’s the ceremonial night cast. And lastly it’s back to the car which if you’re buzzed...could be the most expensive night of your life. Getting pulled over for buzzed driving can cost you around \$10,000 in fines, legal fees and increased insurance rates. Nothing kills a buzz like getting pulled over for buzzed driving, because buzzed driving is drunk driving. Brought to you by the National Highway Traffic Safety Administration (NHTSA) and the AD Council.

AD Council: **Buzzed Driving Prevention/Ryan Seacrest**

Twenty-Four (24) Thirty Second Public Service Announcements Aired: 12/04/14 – 12/31/14
(Monday – Sunday 6AM – 12AM)

Hi I’m Ryan Seacrest for RADD. Over 300 people in this country are killed every week by a drunk driver. That’s an equivalent of two 747 plane crashes every single week. And the problem isn’t going away unless we all do our part to stop it. So if you see someone who’s about to drive after drinking, get the keys! Don’t leave it up to anyone else. Friends don’t let friends drive drunk. A public service announcement brought to you by RADD, the National Association of Broadcasters and the AD Council.

Issue – One Million people chat and text while driving every day. People feel pressure to remain constantly in contact, even if it’s behind the wheel. Drivers do not realize the dangers that are posed when they take their eyes off of the road and their hands off the wheel and also take their focus away from driving.

AD Council: **Texting & Driving Prevention/Driving Sounds**

Seventeen (17) Thirty Second Public Service Announcements Aired: 10/20/14 – 11/11/14
(Monday – Sunday 6AM – 12AM)

Did you just look down at your phone? You did it again didn’t you? You know you’re flying down the road in a three ton hunk of steel. And the text takes your eyes off the road for an average of five seconds. At 55MPH that’s long enough to travel the length of a football field and cause some serious damage. Turn it off, trust me. Whatever it is, you’ll live. Learn more at stoptextstopwrecks.org. Brought to you by the AD Council and the National Highway Traffic Safety Administration (NHTSA).

IV. COMMUNITY ISSUES/INVOLVEMENT/EVENTS

Issue – Currently there are more than 402,000 children in the public child welfare system. Of these 402,000 children, approximately 102,000 are waiting for an adoptive family. After these children turn 18 they are put out of the welfare system and on their own.

Hey guys let's play some video games. So many buttons! Help me! I just don't understand this crazy digital world. Should've just played catch. You don't have to be perfect to be the perfect parent. AD Council: **Adoption from Foster Care/Meditation Mom**

Twenty-Five (25) Thirty Second Public Service Announcements Aired: 12/04/14 – 12/31/14
(Monday – Sunday 6AM – 12AM)

This is a guided meditation on parenting. Find a relaxed position to let go of the time you left your daughter's blouse in the dryer too long and it shrunk four sizes. Or the time you donated her private diary to the public library. Deep breaths. You don't have to be perfect to be the perfect parent. There are thousands of teens in foster care who don't need perfection, they need you. For more information on how you can adopt, visit adoptuskids.org. Issue – Hunger is an ongoing concern for millions of Americans and many don't realize it's disproportionate on children. Nearly 16 million children—1 in 5 kids in America—face hunger.

AD Council: **Hunger Prevention/1 in 5**

Twenty-Four (24) One Minute Public Service Announcements Aired: 12/05/14 – 12/31/14
(Monday – Sunday 6AM – 12AM)

I'm in almost every school bus and class. I go to school with your children. We say the Pledge of Allegiance together. You see me around the neighborhood and you tell me that I'm a pretty good kid. Well, I'm the one out of every five children in America and I'm struggling with hunger. This problem is closer than you think. My teacher tells me we can grow up to be whatever we want. I want to grow up to be someone who doesn't go to bed hungry. There's enough food in this country to feed everybody. Please visit feedingamerica.org today and find your local food bank for ways to help. Every dollar you donate helps provide eight meals for kids like me. Why are we still going with hunger? Together we are feeding America. Brought to you by Feeding America and the AD Council.

Hunger Prevention/Food Angels

Twenty-Five (25) One Minute Public Service Announcements Aired: 12/04/14 – 12/31/14
(Monday – Sunday 6AM – 12AM)

Hey America! We need to have a little talk. We've got more food in our country than we know what to do with. Food at the grocery store and food in the vending machines. Fast food, health food, and seafood. We've got so much food that any food people don't buy we just psh, throw out. Yet 17 million kids struggle with hunger. That ain't right. Luckily the feeding America nationwide network of food banks has volunteers gathering excess food and giving it to hungry kids. They're kinda like food angels. Yah, I made that up. It's kinda catchy. Hello people! This isn't rocket science. We can solve hunger today. To start become a food angel yourself by supporting Feeding America and your local food bank at feedingamerica.org. That's a website, duh! We can't do it without your help. Brought to you by Feeding America and the AD Council.

Issue – Bullying statistics are staggering, more than 80% of high school students in the U.S. reporting that they witness bullying at least once a week. Statistics also show that nearly 13 million—more than 1 in 4 children—experience some form of bullying per year. Whether it is as the bully, bullied and /or both. Bullying is growing concern for parents, but research has shown that if the parent talks to their children about bullying, their children are more likely to take actions against bullying.

Bullying Prevention/Learning

Eighteen (18) One Minute Public Service Announcements Aired: 10/17/14 – 11/11/14
(Monday – Sunday 6AM – 12AM)

Today in school I learned a lot. In chemistry I learned that no one likes me. In English I learned that I'm disgusting and in Physics I learned that I'm a loser. Today in school I learned that I'm ugly and I'm useless. And in gym I learned that I'm pathetic and a joke. In History I learned that I'm trash. Today in school I learned that I have no friends. In English I learned that I make people sick. And at lunch I learned that I sit on my own because I smell. In chemistry I learned that nobody likes me. In Biology I learned that I'm fat and stupid. And in math I learned that I'm trash. The only thing I didn't learn in school today...The only thing I didn't learn today...The only thing I didn't learn is why no one ever helps. Kids witness bullying every day, they want to help, but they don't know how. Teach them how to stop bullying and be more than a bystander at stopbullying.gov. A message from the AD Council.

Issue – Today in the United States, companies are struggling to fill more than 4 million entry-level positions, while 6 million 16-to-24 year olds remain out of work, out of school, and without access to the economic mainstream. These young adults, known as the Grads of Life, are motivated, loyal, hard workers who take responsibility for their futures, but lack opportunity often because they have yet to earn traditional credentials that employers value. For many businesses, the hiring process is largely built around points of elimination and a series of assumptions.
